| How would those tasks be difficult to accomplish if you | and your partner went to Mars alone? |
| Final Reflections | |
| Importance of Systems in Mars Colony List three ways that the colony is better off when you are | e working together. Pick one to explain in detail. |

More Systems

Importance of systems in pairs

Is your pair a system? Describe what makes your pair a system.

Identify two more systems that a colony on Mars will have and explain what makes them systems. Hint: Try to look beyond human systems.

Two Spots Left

There are two more spots open on your voyage to Mars, which means that you can invite two more professionals. Write down two new occupations that would help your colony if you were to bring them along. How will their profession contribute to the colony?
